

Dear Carlos,

My name is Kathy Zorra and I have a 3 year old autistic son, Adam. I wanted to take a moment to tell you how much my family and I appreciate all you have done for the autism community. Chuck Genseal from FEAT is our advocate for our son. I don't know what I would do without the amazing women at my challenge meetings every month. You help keep these groups going. Getting awareness out is so important. When Adam was diagnosed my world came crashing down on me. I think back on all the times when Adam was speaking and acting like a normal growing little boy who loved to play ball. He would wait by the door holding his mitt, which was bigger than he was, so his Daddy could play with him when he walked in the door. This is by far the hardest thing that my family and I have ever gone through. The one amazing thing that has come from what we are going through is meeting people like you. It means so much to know that people care. I was absolutely blown away at the dinner to see how much people donated for desserts. I also wanted to take the opportunity to thank you for allowing me to speak at the dinner. It was a great honor. We have faith that someday we will hear Adam speak again. It takes special people to make a difference and you and your team have made a huge difference in our life and the lives of other families struggling with autism. May God repay you in ways that we never could. Thanks again from the bottom of our hearts and if you ever need any help with any of your other autism fundraisers or projects please feel free to contact us. I have two daughters who have been so inspired by you and your team that they also would love to help in any way and besides they think your daughter Elaina is Great! God Bless you and your team!

Lots of Love and Thanks,
Kathy Zorra and Family
